RE: U.S. DOE-FMPC  
HAMILTON COUNTY  
HAZARDOUS WASTE  
OHD 6890608976

Mr. Gerald W. Westerbeck  
FMPC Site Manager  
U.S. DOE - FMPC  
PO. Box 398705  
Cincinnati, Ohio 45239-8705

Dear Mr. Westerbeck:

This letter is in response to the DOE request for OEPA acceptance of a controlled holding area for the temporary storage of newly generated and newly identified backlog waste at the FMPC (reference DOE-740-91; G. Westerbeck to P. Pardi). The proposed storage area, to be located in Building 64, will provide for container management while the waste is being characterized.

OEPA hereby concurs with this request, with the following provisions:

1. Storage is subject to the conditions and control measures stipulated in your letter; and
2. The controlled holding area is managed in accordance with the Revised FMPC Drum Management Plan; and
3. Since newly generated and newly identified backlog waste will be stored in the same area, FMPC shall either segregate the waste categories or, devise an easily identifiable method of distinguishing containers from the different waste categories.

Please contact me at (513) 285-6090 if you have any questions.

Sincerely,

Phillip C. Harris  
Division of Solid and  
Hazardous Waste Management
